[redacted]

[redacted] members of the Sea Org cannot kill anyone, but they can order people to work day and night with no sleep, water or food until that person dies. [redacted] this policy is stated on paper within the COS.

[redacted] signed billion year contracts to join the Sea Org. [redacted] while you are a member of the EPF, you can receive no mail or telephone communication from sources outside the EPF. Your only communication and contact is to be with your "Seniors."

[redacted] the goal of the COS is to "Clear" the entire planet. To "Clear" the entire planet means that the entire planet would become Scientologists. To "Clear" the planet also means that it will clear all the myths on the planet. These myths include the beliefs that national governments and leaders properly exercise authority over various groups of citizens. Members of the COS believe that only duly authorized Sea Org members can execute proper authority.

[redacted] children within the COS are treated with criminal neglect in many instances. COS philosophy dictates that children are fully operating individuals in small bodies. Therefore, children must pull their own weight. Quite often children are abandoned by their Sea Org parents [redacted]

[redacted] seen children sitting in hallways in their pajamas with a bowl of dry Cheerios before them or no food at all. This is where the parents of the children have left them while the parents perform their duties.

Children of Sea Org members receive virtually no formal education. At the age of six, these children become part of the "Cadet Org." Members of the Cadet Org are taken to a place called the "ranch" where they do hard physical labor, but they do not study. [redacted] the purpose of the "ranch" is to move children out of the public eye so that the COS cannot be disciplined by government agencies for their treatment of children. It is another attempt by the COS to maintain a good public image regarding something the public would perceive as wrong, but the church does not believe is wrong.

[redacted] "terminatedly handled" people for the COS. [redacted]

[redacted] before someone goes on a "mission" for the OSA US, that all the files in which this person appears are gathered up and taken to a place not connected with the COS. Therefore, no record exists connecting the person to the COS if they fail in their mission. [redacted]
