Reference is made to letters dated 5-3-74, 6-10-74, 6-25-74, and 8-2-74 from captioned individual to this Bureau. The initial two communications were answered by Bulets dated 5-16-74 and 6-20-74. The 6-25-74 letter from Parselle was not acknowledged, and it is our view the most recent letter of 9-2-74 should also not be answered.

Our files reveal no identifiable information with correspondent outside of the described communications. It should be noted the letters were written on the stationery of the Church of Scientology. The Church of Scientology of Washington, D. C., Inc., has sued the FBI for information in our files concerning that organization and its affiliates under the Freedom of Information Act.

Correspondent is mainly interested in our policy with regard to allowing individuals access to their FBI files and our reasons behind this. We feel his inquiries have been sufficiently answered by the above-mentioned Bulets and the letter prior to this most recent communication appears to be frivolous in nature. Consequently, we believe it is unnecessary to continue a dialogue in letters which could go on indefinitely.

RECOMMENDATION:

That this most recent communication of 8-2-74 and future communications of a similar nature not be acknowledged.

Dear Mr. Kelley,

I do not appear to have received any reply to my letter of 25th June. I appreciate that you are very busy. Possibly also the letter was lost in the mails; I enclose a copy, and look forward to the favour of your reply in due course.

Yours sincerely,

Dear Mr. Kelley,

Thank you for your letter of 20 June 1974.

I can understand that in terms of your long-standing policy to make information in your files available only to duly authorized law enforcement officials etc., your policy to protect the identity of members of the general public who furnish information can be made defensible. You might otherwise not get such information, whether true or false.

The error seems to me, with respect, to be that the FBI lends the weight of its authority to information which it furnishes from its files. It does not make it clear that such information might be raw, unvaluated data furnished by persons who cannot be challenged because their identity is to be protected, who may have acted on impulse, or out of malice or ill-will. Might I suggest, as a "ready solution" to what is a problem for you but sometimes a catastrophe for others, that information furnished by

Dear Sirs:

I would like to bring to your attention a final decision in an international court case which you may have in your files.

Approximately two years ago a court in France convicted members of the Church of Scientology on charges of fraud. The case was unprecedented in that some of the people involved had never been to France and were tried in absentia. The charges stemmed from a number of false reports about the Church which were circulated around the world by intelligence agencies in the United States and Interpol, the private French police organization.

A few months ago the Appeals Court in France reversed the lower court decision, dismissed all of the charges and formally declared Scientology to be a religion under the meaning of the law in France.

I have included some material on this case for your Scientology files to correct any earlier material you may have on the original conviction. **BE-39** 62-14280-209

Court in France Recognizes Cult, Acquits Ex-Head

PARIS, March 2 (Reuters) — The Paris Court of Appeal has recognized the U.S.-based Church of Scientology as a religion and cleared a former leader of the movement's French branch of fraud.

Georges Andreu, former head of the cult in France, and three other leaders including the American founder, Ron Hubbard, had received fines and suspended prison sentences a year ago after the movement was accused of enticing people to join by making fraudulent promises. Mr. Andreu was the only one of the four to appeal.

The appeals court acquitted him on Friday because of what judges called his evident good faith. The court's president indicated that the three others, who were sentenced in their absence, might be acquitted if they appealed.

"Scientology seemed to correspond to a definition of religion in that it embraces both a faith and a community," the court said. The sect claims to have 5 million members around the world, including
